The Country Club Plaza is a historic upscale shopping, dining, and entertainment district. Celebrating 100 years in Kansas City, the Country Club Plaza was established in 1922 and was the first planned suburban shopping district in the United States and the first regional shopping center in the world designed with parking to

accommodate shoppers arriving by automobile. It is an outdoor museum of European art and romantic Spanish architecture inspired by Kansas City's sister city, Seville, Spain. It is home to some of the oldest and most valuable fountains in the world—some over 300 years old. There are many photo ops including the famous Clementine and Winston Churchill statue. The ESU Kansas City Branch was a major benefactor in commissioning the statue. This tour will be conducted by a professional tour guide. Bus departs hotel at 4:15 pm and returns to hotel at 6:15 pm.
